

Advanced Leadership Seminar

This seminar focuses on developing a strategic and critical mindset that will allow leaders to create an organization environment of high performance with a focus on outcomes and creating value. The highly-interactive program walks participants through the development of a strategic process to drive leading an organization through planned change.

Key Components:

- Provides learning within the framework of large organizations and the environments in which they exist
- Provides a distinct type of strategic-conceptual thinking and response experience
- Provides small, group-work processes with extensive engagement and presentation delivery

Four program dates available:

- April 27 – May 1, 2020
- June 8 – 12, 2020
- August 3 – 7, 2020
- August 17 – 21, 2020

Location:

The University of Kansas Campus in Lawrence, KS

Target Audience:

Leaders at all levels of military, federal, and business organizations, including high-potential individuals that will become future leaders.

All participants are awarded an executive education certificate from the University of Kansas School of Business upon successful completion of the seminar. For additional information, please visit our website:
